Total Manganese (Mn) -	1000 mg/kg
Total Copper (Cu) -	200 mg/kg
Total Zinc (Zn) -	270 mg/kg
Total Boron (B) -	300 mg/kg
Total Molybdenum (Mo) -	120 mg/kg
+ HortiHumic Complex	

Rates of Use:

Low volume field application: 1 to 4 kg / ha in 400 to 800 litres of water.
High volume small area application: 1 to 1.5g/litre applied to run-off.

For other uses, refer to your Hortifeeds Technical Representative.

To be used only where there is a recognised need; do not exceed recommended application rate.

Conditions of Supply:

All goods supplied by us are of high quality and we believe them to be suitable, but as we cannot exercise control over their storage, handling, mixing at use or of the weather conditions before during and after applications which may affect the performance of the goods, all conditions and warranties, statutory or otherwise as to the quality or fitness for any purpose of our goods are excluded and no responsibility will be accepted by us or re-sellers for any failure in performance, damage or injury whatsoever arising from their storage, handling application at use. These conditions cannot be varied by our staff or agents whether or not they supervise or assist in the use of such goods.
