Conditions Of Supply:

All goods supplied by us are of high quality and we believe them to be suitable, but as we cannot exercise control over their storage, handling, mixing at use or of the weather conditions before during and after applications which may affect the performance of the goods, all conditions and warranties, statutory or otherwise as to the quality or fitness for any purpose of our goods are excluded and no responsibility will be accepted by us or re-sellers for any failure in performance, damage or injury whatsoever arising from their storage, handling application at use. These conditions cannot be varied by our staff or agents whether or not they supervise or assist in the use of such goods.

Rates of Use:

Application Rate: Broadcast 30 to 50g/m²

Work into the top 6 to 8cm of soil at planting or top dress established plants.
It is preferable to apply the ericaceous landscape fertiliser prior to mulching.

To be used only where there is a recognised need.
Do not exceed recommended application rate.
